ACKNOWLEDGEMENT

First and foremost, we thank the Almighty for being our light and for showering his gracious blessings throughout the course of this project.

We are grateful to our beloved Dean-Academics Dr. Manju P & Dean-Administration Dr R Ramesh Kumar for their tireless and relentless support.

We extend our sincere thanks to our Head of the Department Dr D. Jeya Bharathi for her encouragement and inspiration.

We are greatly indebted to our Industry Mentor Vimal & Project guide Dr D.Jeyabharathi Assistant Professor, Department of CSE for their valuable guidance and suggestions in all aspects that aided us to ameliorate our skills.

We are thankful to all those who have directly and indirectly extended their help to us in completing this project work successfully.

1. ABSTRACT

This website is dedicated to providing pet owners with all the information they need to keep their furry friends looking and feeling their best. Whether you're a seasoned pet owner or a first-time pet parent, you'll find the information and resources you need to keep your pet healthy, happy, and well-groomed.

This provides regular grooming, tips for choosing the right grooming tools and products, and step-by-step guides for different types of grooming, such as bathing, brushing, and nail trimming. This website helps in booking the appointment priorly. It is a cat grooming service that comes to your home and provides well trained groomer.

2. INTRODUCTION

2.1. PURPOSE OF PROJECT

The ultimate goal is to help pet owners keep their furry friends healthy, happy, and well-groomed, ensuring that they enjoy a long and happy life together. In addition they need to keep their pets looking and feeling their best, an animal grooming website can also help pet owners build a stronger bond with their pets, increase their understanding of their pets' needs, and ensure their pets receive the best possible care.

2.2. SYSTEM OVERVIEW

This website helps in booking the grooming schedule without any complication or any hustle, moreover it provides door step service with well-experienced groomers with quality products.

PROBLEM STATEMENT

Many pet owners struggle to properly care for their pets' physical appearance and health, leading to health problems and a decreased quality of life for the pet. Pet owners often rely on their veterinarians for advice on animal grooming, but this can be

time-consuming and expensive, and veterinarians may not always have the time to provide in-depth advice on grooming-related topics. In addition, pet owners may not have access to pet grooming experts or facilities in their area, making it difficult to get the help they need. The animal grooming website will provide pet owners with a one-stop-shop for all their animal grooming needs, making it easier for pet owners to properly care for their pets and keep them healthy and happy.

3. REQUIREMENT SPECIFICATION

3.1. HARDWARE REQUIREMENTS & SOFTWARE REQUIREMENTS

- **IDE:** visual studio code
- **Platform:** windows

3.2. CONSTRAINTS

- **SOFTWARE CONSTRAINTS:**

The system will run under windows 7 or above.

3.3. ASSUMPTIONS

- ❖ The user will be able to access the website by themselves.
- ❖ All data received from the user via input is stored in the server.
- ❖ Proper verification for user details cannot be done with this project being a front-end-based one.

4. DESIGN

Landing page

Leads to

- Home page
- Login page
- Register page
- Booking page
- Contact us page

Register page

- For users who don't have an existing account.
- Receives user's input.

- Stores them.
- Creates an account for them.

Login page

- For users having an account already.
- Receives users' info.
- Verifies data.
- Allows them to proceed

Home page

- Short description
- Leads to booking page

Booking page

- Displays all available treatment
- Allows users to choose what they want to book.
- So later they can book the slot

Contact us page

- Users can give their feedback
- Users can also send their difficulties or bug ,so that we can resolve it.

5. TESTING

5.1 UNIT TESTING

Every unit on the webpage has been carefully assigned and curated to maximize the quality of output. Each part of the website was tested individually for independent performance analysis

5.2 INTEGRATION TESTING

The integration of all the parts of the webpage ultimately leads to the landing page. Placements of buttons, tabs, and other features were specifically tested. It was made sure that the pages preserved their original positioning all through the testing process.

5.3 USER ACCEPTANCE TESTING

The signup and login pages were efficiently tested to make sure that the user details were constantly updated and the previous data was stored as history.

5.4 TEST REPORT

System testing is very imminent in implementing the working of a website. Every detail of the page has gone through multiple testing to finally reveal its maximum potential. The design testing, placements and errors were checked and improved if any and the corrected end product is made available to the user.

SAMPLE SCREEN SHOTS

7. CONCLUSION

In conclusion, the animal grooming website is a valuable resource for pet owners everywhere. By providing comprehensive information and resources on animal grooming, the website aims to help pet owners properly care for their pets' physical appearance and health, leading to happier, healthier pets and stronger bonds between pets and their owners. will be a valuable resource for pet owners for years to come.

8.FUTURE ENHANCEMENTS

There are several future enhancements that could be made to the animal grooming website to further improve the user experience and provide even more comprehensive resources for pet owners:

Virtual Grooming Assistance: A feature that allows pet owners to connect with professional groomers in real-time, who can provide personalized advice and guidance on grooming their pets.

Online Grooming Appointments: A feature that allows pet owners to schedule grooming appointments with professional groomers in their area directly from the website, eliminating the need for phone calls or in-person visits.

Personalized Grooming Plans: A feature that creates a customized grooming plan for each pet based on their breed, age, and health status, providing pet owners with a tailored approach to their pet's grooming needs.

Interactive Grooming Tools: A set of interactive tools that help pet owners determine the best grooming techniques and products for their pets, including a skin and coat type selector and a product recommendation tool.

Mobile App: A mobile app that provides pet owners with quick and easy access to all the resources and features of the animal grooming website, including step-by-step guides, health resources, product recommendations, and community forums.

By continuously improving the animal grooming website and adding new features and resources, the platform will continue to be an essential tool for pet owners everywhere, providing them with the information and resources they need to properly care for their pets and keep them healthy and happy.
